

Zilliant IQ Platform – Overview

Are You Maximizing Customer Lifetime Value?

Expanding the economic value of existing customers is the most reliable, predictable, and actionable way to grow revenues and enhance margins. Period.

You want to hit your numbers? This is where you start.

5x

Cost to acquire a new customer vs. selling to an existing customer.

Despite this evidence, most initiatives to deploy 'intelligent' and prescriptive sales and marketing solutions at B2B enterprises have focused exclusively on what happens **before** the acquisition of a customer.

60-70%

Probability of closing an existing customer sale, vs. 5-20% likelihood of closing a new customer sale.

That's because successfully delivering B2B Customer Lifetime Value (CLV) intelligence requires more powerful smart technology, a superior architecture, and deeper expertise in the drivers of sales and profit.

This is Zilliant IQ.

Zilliant IQ is the only AI-enriched SaaS platform that allows B2B enterprises to maximize the lifetime value of their existing customer relationships.

Zilliant IQ Engines use advanced AI, machine learning techniques and sophisticated predictive models to quantify the true economic potential of every customer, and intelligently prescribe actions related to optimal product mix, pricing, and current demand.

Zilliant Action IQ puts actionable Zilliant IQ intelligence at the fingertips of every sales person, generating intelligent account plans tailored for each customer so that every sales resource can act like your best, most consultative rep.

Zilliant IQ Anywhere exposes Zilliant IQ intelligence within eCommerce, CRM, CPQ, and other customer-facing touchpoints, so that the economic value of every B2B customer interaction can be enhanced.
